

Models of Software Architecture.
Design and Analysis with UML and Petri-Nets.
Errata

Harald Störrle

December 6, 2001

Please report any further errors you may find to Stoerrle@WEB.DE.

- p. 5; Footnote 4** Delete “by McIlroy”.
- p. 16; line -7** Replace “But.” by “But,”.
- p. 124; Fig. 7.9** The metaclass “Signal” should be more to the left, aligned with its neighbours “Actor” and “Component”. The Generalization-Relationship should be adjusted accordingly.
- p. 126; last line of Def. 8.2.1** Replace “ $\forall x \in P \cup T \bullet x \leq 1 \wedge x^\bullet \leq 1$ ” by “ $\forall x \in P \cup T : \bullet x \leq 1 \wedge x^\bullet \leq 1$ ”
- p. 129; second line of Def. 8.2.7** Replace “ $\gamma : A \rightarrow \mathcal{S}$ ” by “ $\gamma : A \rightarrow \Sigma$ ”.
- p. 131; lines 3 and 4 of Def. 8.2.8** Exchange “implementation” and “specification”.
- p. 135; fourth line under Fig. 8.4** Remove the first closing bracket.
- p. 146; Footnote 4** There should be no carriage return between “to” and “the”.
- p. 181** The left hand side of the second equation should read “ $\langle \llbracket \text{Interaction} \rrbracket_{\text{Run}}, \llbracket \text{Interaction} \rrbracket_{\text{Initial}} \rangle$ ”.
- p. 288** The URL provided in the entry for S. Crawley should read www.dstc.edu.au/Research/Projects/MOF/Tutorial.html.
